## N-CENTRAL®

MONITOR. MANAGE. SUPPORT.

N-central will revolutionize the way that you support and interact with your customers. The N-central suite of managed services software provides a complete platform for monitoring, managing and supporting your customers' environments.

### DELIVER GREAT SERVICE

#### Automation Manager

Drag and drop automation to effortlessly automate just about anything.

#### Direct Support

Provide real-time support without interrupting the end user.

#### Remote Control Manager

For those times when you need to take control.

#### Help Desk Manager

Easily manage support tickets to make sure problems get resolved.

#### Report Manager

Show the value of your services with beautiful customer facing reports.

### PROTECT YOUR CUSTOMERS

#### Patch Manager

Globally approve patches for all customer devices

#### Security Manager

Centrally monitor the industry's leading endpoint protection software.

#### Backup Manager

Backup any data from any virtual or physical device and save space doing it.

#### Audit Manager

Take the pain out of auditing and allow the system to scan and detect non-compliance.

#### Mobile Device Manager

Keep track of company devices and apply mobile management best practices.
